6 Gallon Stackable Recycle Bin with Handle

This bin is designed for compact spaces, to vertically sort & store recyclables, organize household, classroom or workplace items. Vertical storage design uses minimal floor space while maximizing capacity. Made from 100% high density polyethylene and BPA free.

FEATURES:

- Made from durable high-density polyethylene (HDPE)
- Measured volume at 6 Gallons or 23 Litres
- Easy to stack and nest using labelled indentations
- Collect more materials and use less floor space
- Designed for collection allowing the operator to hold the handle with one hand and grip the base with one hand to tip into larger bin, reducing worker injury and strain
- Additional handles on the sides of the container
- Withstands temperatures ranging from 40°F – 130°F
- Smooth interior to allow ease of cleaning
- Suitable for variety of households, including condo living & apartment complexes
- Custom colours available
- Custom imprinting available
